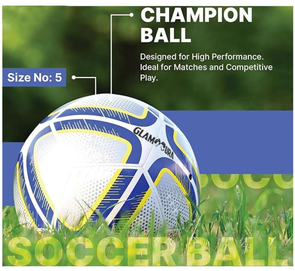
Purpose of Product

- Champion Official Sizes 3-5 Soccer Ball, Premium Quality with Outside TPU Embedded with EVA, Winded Polyster Thread SR Bladder inside.



Product Description

• Exceptional Quality Construction: Crafted from premium TPU (a non-hazardous material) and EVA foam from outside helping to reduce the impact and discomfort from powerful headers. Machine stitched panels for consistent performance, durability and resistance to wear and tear.	• Synthetic Rubber Butyl Bladders (Known for its exceptional air retention capabilities): AKFA incorporates SR bladders in soccer balls to ensure superior performance and durability.	• Weather Resistant Materials: The soccer ball's material is engineered for exceptional durability, allowing it to withstand extreme weather conditions such as intense heat, freezing cold, and heavy rain. This resilience ensures that the ball maintains its shape, grip, and overall performance, even after prolonged exposure to harsh environments, making it a reliable choice for play in any climate.
